Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Touch inputs

- Beside voice control you can operate MBUX via touchscreen as well as touch control buttons on the steering wheel

Personalisation

- Turn the new A-Class into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX - it will tell you the answer

MBUX multimedia system with DAB digital radio

¹LINGUATRONIC off-board functions are currently only available for three years

Plug-in Hybrid

Plug-in Hybrid Electric Vehicle (PHEV) The A 250e Hatchback/Saloon.

Plug-in hybrid vehicles enjoy the same functionality of full Hybrid technology, with the added benefit that they can be charged from an external electricity source. With CO₂ emissions of 23 g/km or less, the A 250e Plug-in Hybrid is an environmentally conscious choice of driving.

A 250e Saloon:
 Petrol – 1,332 cc, 4-cylinder, 160 hp/118 kW Electric motor – 102 hp/75 kW

A 250e Hatchback:
 Petrol – 1,332 cc, 4-cylinder, 160 hp/118 kW Electric motor – 102 hp/75 kW

Standard equipment
AC charging system rated at 11 kW AC
Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 30 km/h, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds
Charging cable – Mode 3 cable (5 metres, straight) for wallbox and public charging stations
Charging socket
Comfort suspension
Pre-entry climate control
Radar-based recuperation
Remote and Charging Services Plus

Technical details	
Equivalent All-Electric Range (EAER) ²	77–80 km
Charging time	
AC charging station (11 kW AC) 10–100% ³	1 hr 15 mins
Wallbox (11 kW AC) 10–100% ³	1 hr 45 mins
Range power consumption, combined ^{2,4}	167–148 kWh/100 km
Battery type (usable)	lithium-ion (16.0 kWh)
Capacity on-board charger	11 kW AC

²The indicated values were determined according to the prescribed measurement method – Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in Ireland. For Plug-in Hybrid Electric Vehicle (PHEV) figures determined with the battery fully charged, using a combination of both battery power and fuel. These models require mains electricity for charging. ³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase). ⁴The certified electrical consumption is generally determined at maximum AC charging capacity using a Mode 3 cable. It is therefore recommended that vehicles with a HV battery preferably be charged at a wallbox or an AC charging station with a Mode 3 cable in order to achieve shorter charging times and improved charging efficiency.

- **Augmented Reality for Navigation:** To enable you to find your way in complex traffic situations, MBUX Augmented Reality navigation connects the virtual world with the real world. The technology incorporates graphic navigation instructions and traffic information into live images. You can reach your destination quickly, safely and stress-free.
- **Advanced Sound System:** The sound system adds listening pleasure to motoring enjoyment. The speaker system is precisely configured for the vehicle interior for the dynamic reproduction of music. Maximum total output: 225 watts
- **Blind Spot Assist:** takes a very close look for you – in particular as soon as you activate the turn indicator. The system is thus able to give you a visual and audible warning of impending side collisions with other road users in the blind spot. After your trip, the system still remains alert and warns you if you open the door at the wrong time.
- **Illuminated Door Sills:** Even getting in and out becomes an experience in itself. As part of this, the high-quality stainless steel door sill panels are illuminated with "Mercedes-Benz" lettering. Thanks to the interchangeable cover, you can swap the door sill panels for other attractive genuine parts from Mercedes-Benz or Mercedes-AMG.
- **THERMOTRONIC:** controls the individual temperature in two zones. You and your front passenger can thus set your preferred climate independently of one another. And you never have to readjust, because the sensitive sensors even register changes in conditions, such as sunlight.

Owing to supply shortages, options for vehicles may be temporarily restricted, resulting in modified vehicle and/or package pricing. Regularly updated information on this issue is available from Mercedes-Benz dealers.

Premium Plus Package

From¹ €7,026

In addition to Premium Package components...

- **Electric front seats with memory function:** With the memory function, you can store and conveniently select up to 3 different seat positions. You can very easily readjust the seat electrically and steplessly.
- **Head-up Display:** Ideal prospects for sporty driving pleasure and a superior driving experience: the head-up display transforms your windscreen into an exciting digital cockpit. This means you always have a direct view of key information. Your full attention remains on the road and the traffic conditions in front of you.
- **MBUX Interior Assistant:** Enjoy contactless ease of operation: This innovative system detects and interprets your hand and arm movements. This means you can activate selected functions in a matter of seconds.
- **MULTIBEAM LED:** On the motorway, on country roads or in city traffic: thanks to intelligent lighting functions, the adaptive MULTIBEAM LED headlamps illuminate the road for you according to the situation, providing excellent visibility.
- **Parking Package with 360-degree camera:** Optimum onboard parking service. The Active Parking Assist with 360° camera makes it easier for you to find a parking space and to manoeuvre into and out of parking spaces. The choice is yours: thanks to all-around visibility, you can park your vehicle yourself – or have your vehicle parked stress-free.
- **Panoramic sliding sunroof:** Whether open or closed, with the panoramic sliding sunroof, you experience a wonderful feeling of freedom and enjoy a pleasantly bright ambience in the interior.
