# Technology

# Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice or touch input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

## Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC<sup>1</sup> lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

## Touch inputs

- Beside voice control you can operate MBUX via touchscreen as well as touch control buttons on the steering wheel

## Personalisation

- Turn the new GLB into your very own Mercedes-Benz by personalising driving modes, radio stations and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

## Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a petrol station? Just ask your MBUX – it will tell you the answer

<sup>1</sup>LINGUATRONIC off-board functions are currently only available for three years

# Mercedes me connect

Stay connected any time, anywhere.

# Mercedes me

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

## Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's oil level, tyre pressure and fuel from your phone so you'll be ready for every journey.

## Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock<sup>2</sup> you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

## Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator<sup>1</sup> will show you exactly where your car is as long as you're in a 2 km radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

<sup>1</sup>Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

<sup>2</sup>Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

# Driving Assistance package

The Driving Assistance package<sup>1</sup> contains a range of highly intelligent features to help you stay safe on the road – by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

**Driving Assistance package** – designed and priced as a package, including items listed on the right-hand side.

from \*€3,174

**Active Blind Spot Assist** can warn the driver of vehicles in the blind spot during a lane change and can help to avoid a collision by means of one-sided braking intervention

**Active Braking Assist with cross-traffic function** can help to avoid accidents with vehicles ahead, crossing traffic and also pedestrians, and/or mitigate their consequences

**Active Distance Assist DISTRONIC** helps maintain the desired distance from the vehicle in front

**Active Emergency Stop Assist:** immediate emergency braking if evasion is impossible

**Active Lane-change Assist:** aids the driver with changing lanes by means of steering torque as soon as the driver initiates the change by activating the direction indicator

**Active Speed Limit Assist** ensures detected speed limits are automatically adopted as the set speed for Active Distance Assist DISTRONIC

**Active Steering Assist:** targeted steering intervention to prevent unintentional drifting out of lane

**Evasive Steering Assist** can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

**PRE-SAFE system:** makes use of the time prior to an impending accident on your behalf. A host of measures are able to reduce the loads generated as a result

\* Subject to vehicle specification and VRT rate.

# Towing package

Thanks to the Towing package, you can extend your transport options.

**Towing package** (code 550) – designed and priced as a package, including items listed on the right-hand side.

from \*€1,649

## **Towing package comprises:**

---

Electrically folding tow bar

---

ESP® trailer stabilisation

---

Switch with LED in the boot – LED indicates when the ball neck is no longer in a locked end position

---

\* Subject to vehicle specification and VRT rate.
