

EQ Electric Intelligence

The EQC

Price List as of 01st July to 31st August 2022

Mercedes-Benz

Welcome

At Mercedes-Benz we appreciate the importance of detail. Over the following pages you'll find model prices and a breakdown of standard and optional equipment, as well as details of the attractive finance offers and benefits that are available to every Mercedes-Benz driver.

We have highlighted some of the best styling features both inside and out, some of the new technology features and some body styling options which all combine to give you a unique driving experience. To experience a full listing of what is available; please speak directly to your local Mercedes-Benz Dealer.

Of course, some things have to be experienced to be truly appreciated, such as the qualities that set a Mercedes-Benz apart, which is why we'd like to invite you for a test drive at your local Mercedes-Benz Dealership. Discover the location and the contact details of your local Mercedes-Benz Dealership at **www.mercedes-benz.ie**

EQC

Technology

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or gesture (where fitted) input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Personalisation

- Turn the new EQC into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

¹LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect

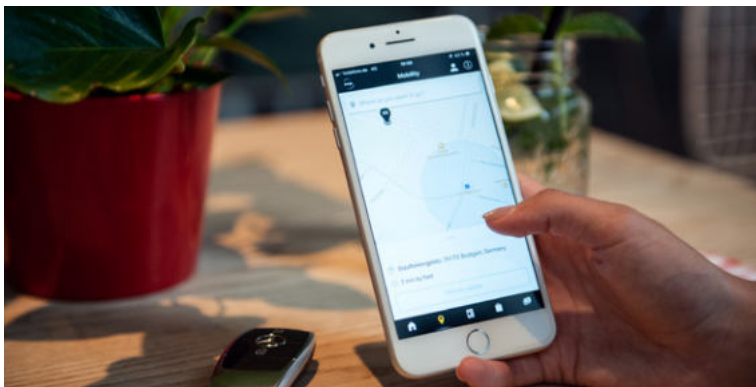

Stay connected any time, anywhere.

Mercedes *me*

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

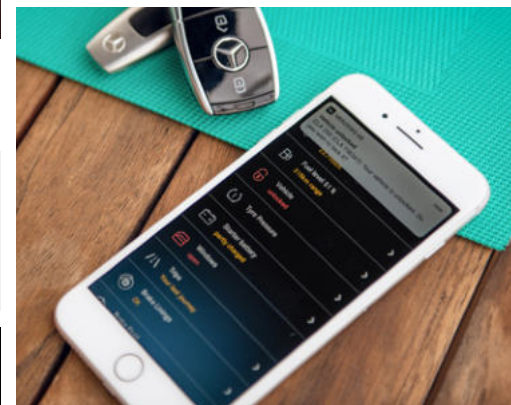

EQ-specific Services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The EQ-specific navigation considers electrical range, topography and charging stations.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at <https://www.mercedes-benz.ie/passengercars/mercedes-benz-cars/mercedes-me.html>

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model Images shown are for illustration purposes only

EQC

EQ

Vehement power immediately from standstill: An electric motor each at the front axle and rear axle convert electrical into mechanical energy, and deliver impressive forward thrust. The intelligent operating strategy of the powertrain components supplies the power always wherever it is needed at the moment – efficiently and nearly silently.

EQC 400 4MATIC

Battery electric vehicle, 408 hp/300 kW
Electric range 412–413 km – WLTP

Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 30 km/h, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds

Charging system – AC charging system rated at 11 kW; DC rated at 110 kW

Charging socket

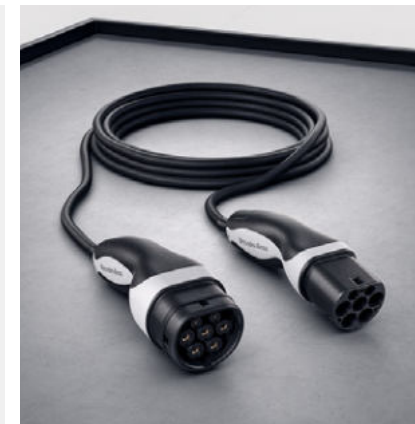

Charging cable for wall box and public charging stations, 5 m

Mode 3 cable, enables you to charge the vehicle battery via the wall box or at public charging stations.

Suspension – comfort suspension

Pre-entry climate control

Radar-based recuperation

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

EQC Standard equipment highlights

Option shown: cavansite blue metallic paint (code 890)

Exterior

19" alloy wheels - 5-twin-spoke design, painted high-gloss black with a high-shine finish

Badge on the wing in high-gloss black with chrome stripes and blue 'EQC' lettering

Black panel radiator grille with louvres and surround in chrome

Centre air intake with two air inlet grilles in chrome

Exterior mirrors in high-gloss black

Front and rear LED light band

Front apron with high-gloss black inserts and lower bumper section in black

Mirror Package - including electrically folding outside mirrors + Automatic tilting of the front passenger mirror glass to the parking position when reverse gear is selected + Automatically dimming inside rearview mirror and outside mirror on the driver's side + Surround lighting of the outside mirror to illuminate the entrance area

MULTIBEAM LED headlamps with inner housing and tubes in high-gloss black plus stripes in blue

Privacy glass

Interior

Dashboard in ARTICO man-made leather with metallised-look finish and piping in rosé gold

Floor mats

Heated front seats

Electric seat cushion adjustment (height adjustment) & Electric backrest adjustment (angle adjustment)

Steering wheel - 3-spoke multifunction steering wheel, trimmed in leather

Communications, Safety and Assistance Systems

Active Lane Keeping Assist + Active Brake Assist

DAB digital radio

Hard disc navigation

MBUX multimedia system with 10.25-inch instrument display and 10.25-inch media display with touchscreen

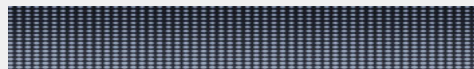

Mercedes-Benz sound system

Reversing camera

Trim and Upholstery

Grey matrix-look trim(H63)

ARTICO man-made leather - black (101A)

EQC AMG Line Standard equipment highlights

Option shown: designo diamond white bright paint (799U)

In addition to/replacement of standard model

Exterior

19" AMG - twin-spoke light-alloy wheels aerodynamically optimised, painted in tantalite grey

AMG-specific black panel radiator grille in a twin-blade design and surround in high-gloss black black, as well as visible and air curtains

AMG-specific rear apron with visible air outlets, diffuser insert in black and trim element in chrome

Specific aerodynamic measures to further optimise the wind resistance for optimum range efficiency

Interior

AMG brushed stainless steel sports pedals with black rubber studs

AMG floor mats

AMG sports seats in leather

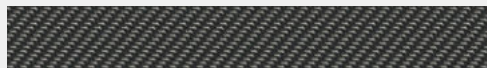

Multifunction sports steering wheel in nappa leather with control panels in chrome, flattened bottom section and perforated grip area

Trim and Upholstery

Anthracite carbon fibre-look trim with high-gloss centre console (H65)

ARTICO leather black / DINAMICA microfibre black (65 1A)

ELECTRIC ART Standard equipment highlights

With the Electric Art interior, you can carry over the innovative design concept of your vehicle into the interior. The colour scheme in particular, with additional exclusive highlights in rosé gold, characterises the emotional and refined ambience.

Standard ELECTRIC ART : ARTICO man-made leather black (111A)

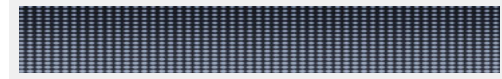

No cost option : ARTICO man-made leather / Sunnyvale fabric, two-tone indigo blue / black (382A)

In addition to/replacement of standard model
Interior

- Dashboard in man-made nappa leather look
- Beltlines with fine surface texture, in black or blue with topstitching in rosé gold or mid grey
- Topstitching in rosé gold such as on the armrest, door panelling and the dashboard
- Multifunction sports steering wheel in leather with steering wheel in chrome/high-gloss back

Trim Choice

Standard - Grey matrix-look trim(H63)

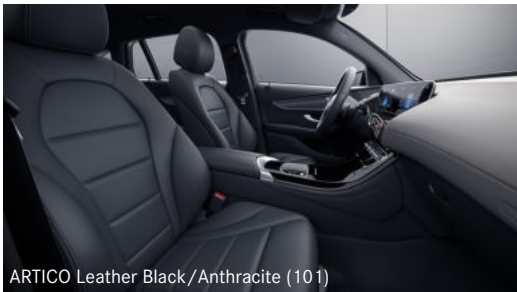

No cost option : Aluminium-look trim (H66)

Upholsteries

Optional (20-inch) 10-spoke light-alloy wheels (R37)

Optional (20-inch) 5-twin-spoke light-alloy wheels (R92)

Standard (19-inch) AMG 5-twin-spoke light-alloy wheels (RRG)

Optional (19-inch) AMG 5-twin-spoke light-alloy wheels (RSX)

Optional (20-inch) AMG multi-spoke light-alloy wheels (RRR)

EQC AMG Line

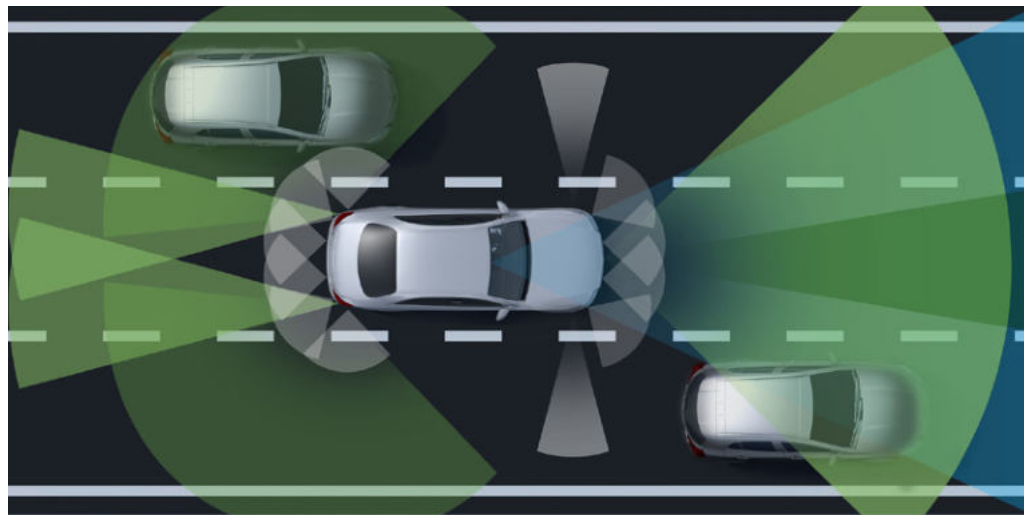

Optional (21-inch) AMG multi-spoke light-alloy wheels (RWI)

Driving Assistance package

The Driving Assistance package contains a range of highly intelligent features to help you stay safe on the road – by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

Driving Assistance Plus package (code 23P)

Active Distance Assist DISTRONIC

- Active Speed Limit Assist
- Extended automatic re-start on motorways
- Route-based speed adaptation with end of traffic jam function

Active Blind Spot Assist with Exit warning function can warn the driver of vehicles in the blind spot when driving or when opening the door to exit the vehicle

Active Steering Assist

- Active Emergency Stop Assist with SOS function – immediate emergency braking if evasion is impossible
- Active Steering Assist prevents unintentional drifting out of lane through targeted steering intervention

Active Brake Assist with turning manoeuvre function, cross-traffic function and congestion emergency braking function

Evasive Steering Assist can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

Active Lane Keeping Assist

Pedestrian warning function near pedestrian crossings

PRE-SAFE PLUS when a rear-end collision threatens, PRE-SAFE PLUS can initiate preventative measures

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation¹ (code 550)

Available on all models

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 65 kph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

¹Please be aware fitment of this option will impact expected range

Smartphone Integration

Smartphone Integration seamlessly links your mobile phone with the media system via Apple CarPlay® or Android Auto™. This gives you convenient access to supported apps from third-party providers such as Spotify quickly and easily using voice control, the touchpad or the touchscreen.
